ABOUT ME

An About me document is a good tool for educators and the service to get to know the child from the family perspective and get an understanding of their objectives. It can provide a great foundational basis when a child comes into care and depending on the service may become part of the enrolment process and/or entry interview (if applicable for the service).

This document would be provided during enrolment or upon a child entering a room or new room within a service.

They should be updated each year to remain up to date with the child and gain feedback from the parent/guardian.

How can we support
you as a family:

Are you aware of the input you
can have within the service?

Do you have specific cultural
requirements we should be aware of?

Do you have child rearing practises
we should be aware of?

Is your child receiving
professional support? If so which
agencies/professionals?
